

## **Hamburg Harbourcity – Europe`s biggest inner-city waterfront project.**

### **Historic Warehouses versus Future Citystyle.**

Hamburg Harbourcity is Europe's biggest inner-city development project, making it one of the most prominent inner-city waterfront projects in the world. Based on a new concept for urban living, it will increase the size of Hamburg City by 40 percent.

Between the historic Speicherstadt warehouse district and the River Elbe a new city with a cosmopolitan mix of homes, service businesses, culture, leisure and commerce is emerging. Structures typical of a port will be retained.

We are walking inside this exciting waterfront area and are visiting the buildings and upgrowing places of interest. At the end of our guided tour we relax at the Bar and Bistro in the Empire Riverside Hotel, with few on the harbour. The new built hotel is constructed by the architect David Chipperfield.

### **Services & Rates:**

The guided tour is daily (except Sunday) from 10 am to 7 pm.
