

Personal Art Guide Service

Program and profile

I´m an art historian with passion on contemporary and modern art. So I like to share my passion with you, to give you insights in the art scene in a short and smart way. Hamburg is my home, it is my pool where I´m networking with artists, gallery owners and Hamburg enthusiasts to show you the hidden beauties, which are not listed in any guidebook.

The personal art guide service is often used by people, being very busy, having not much time to explore a city or the art scene - or by bon vivants who enjoy art and insider tips selected by their personal art guide.
